

Why buy an Athlegen portable?

release date 27.09.16

Bodyworker Pro

Designed, engineered and made in Australia by Athlegen, Bodyworker Pro portables employ twin cables and our own triangulation power strut design. Strong, silent, stable, with minimum table flex; this superior design provides unparalleled support, even under extreme loads and repeated professional use. Quite simply we believe they are the best portable massage tables in the world! Athlegen tables are engineered to last under heavy duty professional use, and will not need to be replaced in a few years' time. Cheap tables don't last, they get noisy, flex, and can be difficult and frustrating to work with.

- Simple portable design that is safe, easy and fast to set up and fold away, no need to press any noisy locking buttons, and almost impossible to set up incorrectly unlike some competing products.
- Great height range: The small increment adjustments ensure that you will be able to set to a table height that will be perfect for you and your patient.
- Superior construction and QA by a company with over 30 years of Australian manufacturing experience.
- 10 year professional structural warranty.
- Standard inclusions are a luxurious CFC free cushioning system and the option to fit a professional quality head cradle with a suspended armrest.
- Athlegen superior design employs triangulation: a triangle is one of the strongest structural forms known to man and is used extensively in the construction industry to reinforce and support weight. Examples of structures built by triangulation are the Eifel tower, building scaffolding, pyramids, steel bridges and Athlegen Bodyworker Pro portable massage tables!

CXL and Genesis

Designed and engineered in Australia by Athlegen, CXL portables employ twin cables and our own triangulation power strut design. Strong, silent, stable, with minimum table flex; this superior design provides unparalleled support suitable for student and professional use in most modalities. All models feature a high level of comfort and finish compared to other similarly imported products. Simply the best imported tables available for the money.

Centurion Elite and Natura

Quality treatment tables compared with other comparably priced imported products. Centurion portables are sourced and imported by Athlegen and because we buy in bulk, and offer a limited range of models, sizes, colours and options, we are able to keep the price to an absolute minimum. Great tables for students or professionals just starting out. We guarantee you won't buy a better table for the money.

Accessories

We only use the highest quality accessories on all our portable models. Head cradles are independently tested by us to ensure that they meet our strict QC and safety standards.

All the above product ranges meet our strict QC requirements. We stand by every product we sell with the best warranty in the industry; and we provide servicing by our own caring employees covering most major population centres in Australia.
