

Orion

TWO SECTION EXAMINATION TABLE

The Orion two section examination table is designed to fulfill the basic requirements of patient assessment and examination, and is well suited to general practice, physiotherapy and sports injury treatment.

The Orion power-lift base has the capacity of lifting patients through a height range from seat height of 47 cm, to a maximum treatment height of 94 cm. This allows easy access for elderly and incapacitated patients while also achieving an ergonomic working height for the practitioner.

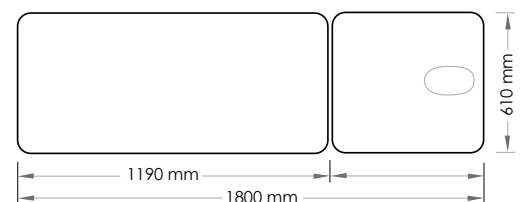

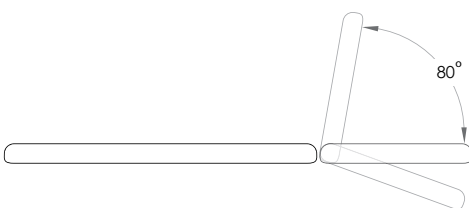

An integrated gas assisted backrest may be adjusted through a wide range of angles very easily with just one hand, leaving the other hand free for other tasks. A foot operated retractable wheel system allows the Orion table to be easily moved when required. In use the table sits securely on four solid supports that can be adjusted for an uneven floor.

*TGA registered 

Supportive twin layer cushioning

features

- Electric power height adjustment system is driven by a commercial grade linear actuator made in Germany ensuring fast, reliable and vibration free performance.
- Adjustable section features quality German gas struts that make adjusting the backrest easy and accurate, and provide extra security, support and rigidity.
- 8 pivot lifting arm mechanism, super strong with self lubricating nylon bushes to ensure smooth and quiet operation.
- Upholstery construction features high quality cfc free foam rubbers.
- High quality protective coated vinyl with oil resistant properties; durable, with a soft and comfortable feel.
- Foot operated retractable wheel system for ease of moving.
- Retractable castors with a chrome housing, steel bearings and a rubber wheel tread.
- Durable powder coated rust resistant frame.
- Built to last with very low maintenance.

specifications

Maneuverability

360° rotation, retractable nylon castors with a chrome housing, steel bearings, and rubber wheel tread.

Covering

PVC tested to AS 1441.11, AS 1530.3, AS 4088.1

Cushioning

Treatment 930

THREE SECTION

The Athlegen Treatment 930 is suitable for a wide range of modalities, including massage, acupuncture, osteopathy, beauty treatments, examinations and podiatry.

The Three Section configuration features a shorter seat section, perfect for positioning clients in a reclining or seated position, making it ideal for pedicures and podiatry treatments. The adjustable head section can include a face recess and can be slightly lowered enabling the prone patient to fully relax the neck muscles, giving optimum comfort during supine position treatments.

Optional face cradle extension with prone position armrest can also be fitted. Combine this with quiet height adjustment and you have discovered just a few reasons why this is the perfect table for your practice.

features

- Electric power height adjustment system is driven by a commercial grade linear actuator made in Germany ensuring fast, reliable and vibration free performance.
- Adjustable sections feature twin stainless steel control arms which provide extra security, support and rigidity.
- 8 pivot lifting arm mechanism, super strong, with self lubricating nylon bushings to ensure smooth and quiet operation.
- Upholstery construction features high quality Australian made cfc free foam rubbers.
- High quality protective coated vinyl with oil resistant properties; durable with a soft and comfortable feel.
- Choice of table top widths and cushioning constructions so you can customise the treatment area to best suit your needs.
- Heavy duty, industrial quality lockable castors with a chrome housing, steel bearings and a rubber wheel tread.
- Durable powder coated rust resistant frame.
- Heavy duty stainless steel footswitch
- Built to last with very low maintenance.

Treatment 680

THREE SECTION

The Athlegen Treatment 680 is suitable for a wide range of modalities, including massage, osteopathy, beauty treatments and examinations. The three section configuration features a shorter backrest (680mm) and a longer seat section than the Treatment 930 model. This configuration is better suited to modalities that need to treat clients in a seated position but require extra leg room. The adjustable head section includes a face recess and can be lowered enabling the prone patient to fully relax the neck muscles and achieve optimum comfort - ideal for massage treatments.

Optional face cradle extensions with armrests can also be fitted. The sturdy design helps to optimize your performance whilst achieving maximum comfort and support for your clients. Combine this with fast and quiet height adjustment and you have discovered just a few reasons why this could be the perfect table for your practice.
