

Access - original

ECO - LIFT

The Access eco-lift table is Athlegen's entry model powerlift massage treatment featuring an imported high performance electric eco lift base with our own multi-layered luxuriously upholstered access top design which has been handstitched and assembled in Australia to the highest specifications.

The **Eco-Lift** base has a 175kg lifting capacity through a height range from a seat height of 47 cm, to a maximum working height of 94 cm. This allows easy access for elderly and incapacitated patients while also achieving an ergonomic working height for the practitioner.

An integrated gas assisted head support may be adjusted through a wide range of angles very easily with just one hand, leaving the other hand free for other tasks.

features

- Electric power height adjustment system is driven by a commercial grade linear actuator made in Germany ensuring fast, reliable and vibration free performance.
- Adjustable section features quality German gas struts that make adjusting the head section easy and accurate, with a high level of support and rigidity.
- 8 pivot lifting arm mechanism, super strong with self lubricating nylon bushes to ensure smooth and quiet operation.
- Upholstery construction features high quality cfc free foam rubbers.
- High quality protective coated vinyl with oil resistant properties; durable, with a soft and comfortable feel.
- Foot operated retractable wheel system for ease of moving.
- Retractable castor system allows the table to sit securely on the ground when in use and extended only when table needs to be moved.
- Durable powder coated rust resistant frame.
- Built to last with very low maintenance.
