

Eclipse

SEATED MASSAGE AND TREATMENT CHAIR

Supplied with detachable shoulder strap

THE ECLIPSE™ ON-SITE MASSAGE CHAIR

Now with 30 day Money-back satisfaction, and 3 year structural guarantee*

The Eclipse is the perfect for the ever expanding seated massage market. You can enter any location, set up and provide a rejuvenating 15-minute massage that will leave your client invigorated and happy.

The Eclipse has been designed to provide complete client comfort as well as ease of adjustment for therapists. The one piece integrated design can be adjusted without removing any parts. Full set up and fold away actions takes less than 20 seconds.

Each body support pad is fully adjustable, resulting in a chair which is suitable for treating a wide range of clients. This combined with the chairs ability to fold down flat, and its lightweight design make the eclipse an excellent addition to your business.

Excellent comfort with 55mm Twin layered, soft edge cushioning.

Now with 30 day Money-back satisfaction and lifetime structural guarantee*

The Bodyworker BXL is the new generation of professional portable massage tables bought to you by Athlegen. Designed and engineered in Australia by Athlegen, the Bodyworker is one of the strongest, quietest, lightest and most rigid tables available. What makes this table so special is it's uniquely braced frame design which is based on a system of interlocking triangular geometry. The Bodyworker comes standard with face recess hole, and the capacity to accept the addition of a more luxurious, optional face cradle. The table height is fully adjustable and has an incredible 9 height increments.

The amazing thing is that the Bodyworker is a full size professional table at 1870mm long and 680mm wide with a high quality plywood base, and still weighs only 12kg! **Bodyworker tables are used and endorsed by the Victorian Institute of Sport.**

features

- Power strut interlocking triangle design provides a super strong and quiet table frame/chassis.
- Easy open and fold without any of the fuss or noise of locking buttons.
- Nylon washers are used between all metal parts to prevent any noises during treatment, and to deliver a long maintenance free life.
- Upholstery construction features high quality, cfc free cushioning.
- Centre running brace cables are well out of the way during treatments.
- High quality protective coated vinyl with oil resistant properties; durable, with a soft and comfortable feel.
- Hard anodized rust resistant aluminium frame. Lightweight, strong and durable.
- Structural moving joints are made of marine grade nylon to ensure total silence during treatments.
- Built in option to add either a fixed, or adjustable angle face cradle, armrest, and face hole plug (as pictured)
