

"The table is perfect and I am really happy with the quality, material and colour. Your company made the whole process incredibly simple and efficient and delivered on time."

CAROLYN AUSTIN

## Pro-Lift Treatment 680

This versatile three-section table is ideal for physiotherapy, massage, beauty treatments, examinations or any multimodality practice. The 680mm backrest configuration allows for more legroom when seated compared to the Treatment 930.

SELECT FROM OVER 30 COLOURS AND FABRIC CHOICES INCLUDING POLYURETHANE (PU), VINYL (PVC) AND GENUINE ITALIAN LEATHER:

## PRODUCT INFORMATION

### MANUALLY ADJUSTABLE BACKREST

The lift-up back adjusts in seconds to create a sturdy, comfortable treatment platform – an ideal choice for massage, beauty treatments, examinations or any multimodality practice.

### ADJUSTABLE HEAD SECTION

The standard configuration includes a face hole in the head section for more comfortable prone treatments. The head section can be finely adjusted to enable the prone patient to relax the neck muscles fully during treatments.

### FACE HOLE OPTIONS

Choose a face recess in the lift-up back or head section. Order a face hole plug to help move patients quickly between prone and supine positions – no need to rotate the patient to avoid the face hole.

### FOAM OPTIONS

Choose between five Dunlop® cushioning systems ranging from Ultra Firm to luxurious Viscoflex® slow release memory foam. We have the right foam system to suit your modality.

### TABLE WIDTH

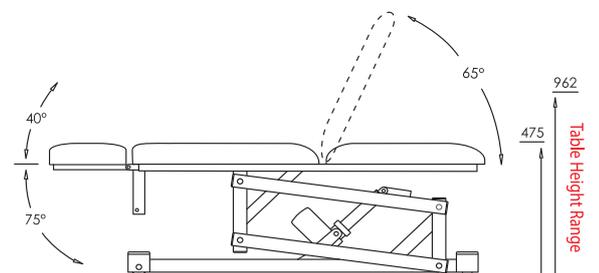

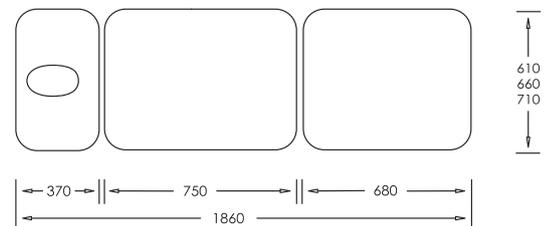

Select from three table widths to suit your modality. Custom width tabletops are also available at an additional cost.

### BASE STYLE

Choose between our Standard base with concealed in-line wheels and floor-levelling feet or our lockable Castor base for easy manoeuvrability. All wheels feature TPE rubber compound tread to protect your floors.
