

Value-Lift ABR

Adjustable back rest: Model R2002

Better tables for less

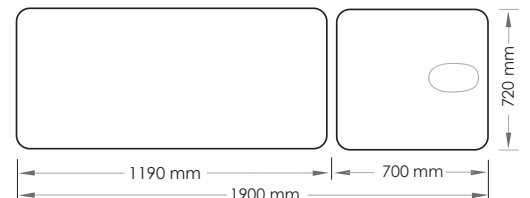

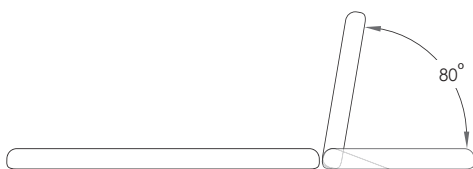

ABR Value-Lift with power driven height adjustment allows easy access for elderly and incapacitated patients while also achieving an ergonomic working platform for the practitioner. The integrated gas assisted backrest can be easily adjusted through a wide range of angles. The ABR Value-Lift is a versatile table suitable for a wide range of modalities, or any multi modality practice.

- Patient assessment and examination
- Massage
- Beauty therapy
- Waxing
- First aid

Why Centurion?

We know treatment tables! Over 30 years experience in designing and manufacturing power driven treatment tables in Australia.

- Quality treatment tables at an affordable price.
- Designed in Australia.
- All models meet strict QC requirements.
- All models employ high quality, powerful Linak linear actuators.
- We carry spare parts and employ our own service technicians.

features

- Electric power height adjustment system is driven by a high powered, quiet 6000 N Linak motor ensuring fast and vibration free performance.
- Control box with a standardized IEC connector and detachable power cord. Because the power cord is not hard wired it is easy and inexpensive to replace if damaged.
- Hand control unit to easily operate table height adjustment, and can be stored on either side of the table.
- Face hole recess in backrest.
- Lift up back section features a gas strut that makes adjusting the backrest easy and accurate.
- In use, the table sits securely on four solid supports that can be adjusted for an uneven floor.
- Durable powder coated frame.
- Pivot lifting arm mechanism, with all pivots bushed to ensure smooth and quiet operation.
- High quality protective coated PU vinyl with oil resistant properties.

specifications
