

Value-Lift Massage

Contoured Top: Model C1004

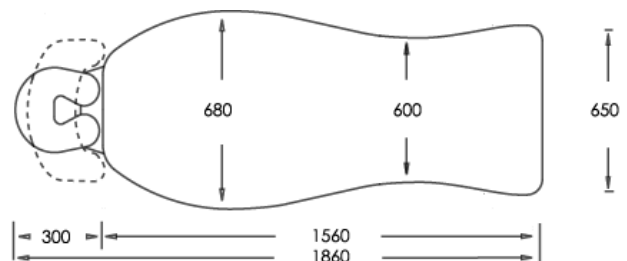

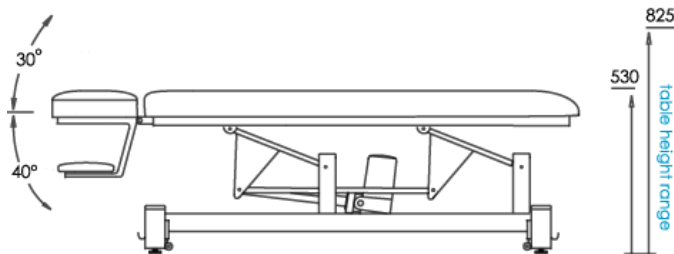

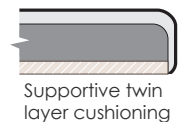

Better tables for less

The Massage Value-Lift is a great table for your practice. Power driven height adjustment allows easy access for elderly and incapacitated patients while also achieving an ergonomic working platform for the practitioner. The unique shape of the contoured top allows excellent practitioner access during treatments and is enhanced with standard features such as a superbly comfortable and adjustable head support system with a prone armrest support. Ideal for all massage treatments including sports and remedial massage.

Why Centurion?

We know treatment tables! Over 30 years experience in designing and manufacturing power driven treatment tables in Australia.

- Quality treatment tables at an affordable price.
- Designed in Australia.
- All models meet strict QC requirements.
- All models employ high quality, powerful Linak linear actuators.
- We carry spare parts and employ our own service technicians.

features

- Electric power height adjustment system is driven by a high powered, quiet 6000 N Linak motor ensuring fast and vibration free performance.
- Control box with a standardized IEC connector and detachable power cord. Because the power cord is not hard wired it is easy and inexpensive to replace if damaged.
- Stainless steel foot control unit to easily operate table height adjustment.
- Head cradle section features a gas strut that makes adjusting the cradle easy and accurate.
- Prone armrest for superior patient comfort.
- In use, the table sits securely on four solid supports that can be adjusted for an uneven floor.
- Foot operated retractable wheel system for easy manoeuvrability.
- Durable powder coated frame.
- Pivot lifting arm mechanism, with all pivots bushed to ensure smooth and quiet operation.
- High quality protective coated PU vinyl with oil resistant properties.
