

Elite 635 and 720

Lightweight portables from 12.5 Kg

An Elite portable is a great table for your mobile practice. One of the strongest and lightest tables available - perfect for students or professionals just starting out.

Elite portables come standard with a face hole recess plug and the capacity to accept the addition of a more luxurious, optional head cradle. The table height is fully adjustable with an incredible 8 height increments.

Excellent comfort with 64 mm, twin layered, high density foam with soft edge cushioning.

Optional adjustable height and angle head cradle

Why Centurion?

We know treatment tables! Over 30 years experience in designing and manufacturing portable treatment tables in Australia.

- Quality treatment tables at an affordable price.
- Designed in Australia.
- All models meet our strict QC requirements.
- We stock spare parts and employ our own service technicians.

features

- Easy to set up and fold away without any of the fuss or noise of locking buttons.
- Great height range with small increment adjustments to ensure you will be able to set to a table height that will be perfect for you.
- New "D" shaped telescopic aluminium leg makes it much faster and very easy to adjust the table height
- Rust resistant aluminium legs. Lightweight, strong and durable.
- Reinforced aluminium strut and dual cable design provides super strong table support.
- Nylon washers are used between all metal parts to prevent any noises during treatment, and to deliver a long maintenance free life.
- Precision crafted plywood frame with quality finger jointed construction.
- Rounded corners for increased practitioner comfort when working around the table ends.
- High quality protective coated PU vinyl with oil resistant properties.
- Ready to add an optional adjustable angle face cradle.
