Tensile strength	(ISO 3376) \geq 10N/mm
Colour fastness	Rubbing (ISO 11640) 4-5 (Grey Scale)
Flammability	California Technical Bulletin 117 Pass California Technical Bulletin 133 with Fire Blocker and/or Fire Barrier Cloth Pass

CLEANING INSTRUCTIONS

Regular Cleaning and Maintenance

Use a mild pH-neutral soap and a damp cloth. Use a reputable leather conditioner every three or four months to keep the leather soft and supple. Do not soak the leather. Do not use detergents, solvents, abrasives or suede cleaners; saddle soaps, oils, furniture polish, waxes or varnish; or any disinfectants (e.g. bleach, citric or alcohol-based) as they may cause irreparable damage.

Spots and Spills

Blot gently with a clean absorbent cloth. Use clear warm water and gently wipe the spill and the entire surrounding table section. Dry with a clean towel and allow to air dry. Do not dry with heat dryers, hairdryers, etc.

Difficult Stains

Use a mild solution of soap and warm water. Apply the solution with a clean wet sponge and wash, then rinse well. Let air dry. Always test a hidden area first.

NOTE: All colours shown are approximate. While we do our best to represent fabric colours accurately, digital representations may vary depending on the viewing device.
