## PRODUCT INFORMATION

### ADJUSTABLE HEAD SECTION & ARMREST

The sturdy head section and armrest can be finely adjusted so the prone patient can fully relax their neck muscles during treatments. The narrower head section design allows easy access to the armrest.

### ADJUSTMENT FOAM

Choose between our Firm Adjustment cushioning, specifically designed for adjustment work and massage, and Ultra Firm Adjustment cushioning, our firmest option for chiropractic and osteopathy adjustment treatments.

### STURDY DESIGN

Designed for osteopaths who prefer a longer table top (1865mm) without the need for an extendable footrest. Made in Australia by Athlegen, our sturdy design is built to last even in the busiest practice.

### OPTIONAL REMOVABLE ARMREST

Fast to remove and replace, the removable armrest allows better practitioner access when working seated at the head of the table.

### TABLE WIDTH

We have a table width to suit every practitioner; select from 550mm, 610mm (our most popular table top width) or 660mm.

### BASE STYLE

Choose between our Standard base with concealed in-line wheels and floor-levelling feet or our lockable Castor base for easy manoeuvrability. All wheels feature TPE rubber compound tread to protect your floors.
