FAST HEIGHT ADJUSTMENT

Save time with quick height adjustments from our extra powerful 10,000N German actuator - with smooth and quiet operation, our actuator is three times faster than most competing products.

MANUALLY ADJUSTABLE BACKREST

The adjustable backrest is 950mm in length, making it perfect for taller patients. An optional face hole, face plug and neck bolster are also available (shown above).

MOULDED ARMRESTS

Moulded armrests allow seated clients to relax completely. They can be entirely removed or flipped out of the way when clients need to get on and off the table or if increased practitioner access is necessary.

MOTORISED SEAT TILT

The tilt seat greatly enhances patient comfort during treatments. The Podiatry chair has a power-driven seat tilt perfect for positioning patients quickly and effortlessly.

MANUALLY ADJUSTABLE LEG SECTION

The leg section can be adjusted down to 90°. The leg section automatically locks in place when the handle is released.
